Advanced LED Solutions to Support Your Business

We offer advanced and energy-efficient LED solutions tailored to our customers' specific needs — reliably and flexibly.

- ✓ Over 170 000 delivered products in more than 25 countries.
- ✓ Verified international supply and subcontracting chains.
- ✓ Special expertise in demanding environments: port and terminal areas, cranes, manufacturing and assembly areas, and industrial lighting.
- ✓ Environmentally optimized lighting control integrated into all lighting solutions.

Where We're Headed – **Our Vision and Mission**

OUR VISION

is to be the most respected partner in LED lighting — known for sustainability, quality, and tailored solutions in Finland and internationally.

OUR MISSION

To provide high-quality, energy-efficient LED lighting solutions that strengthen our customers' operations — while reducing environmental impact through expertise, flexibility, and integrity.

The Foundation of Our Work – Our Values

CUSTOMER FOCUS

Working closely with our customers enables us to identify their needs and deliver lighting solutions that help them succeed.

EFFICIENCY

With deep experience and constant development, we stay at the forefront of lighting technology to offer modern and efficient solutions.

RELIABILITY

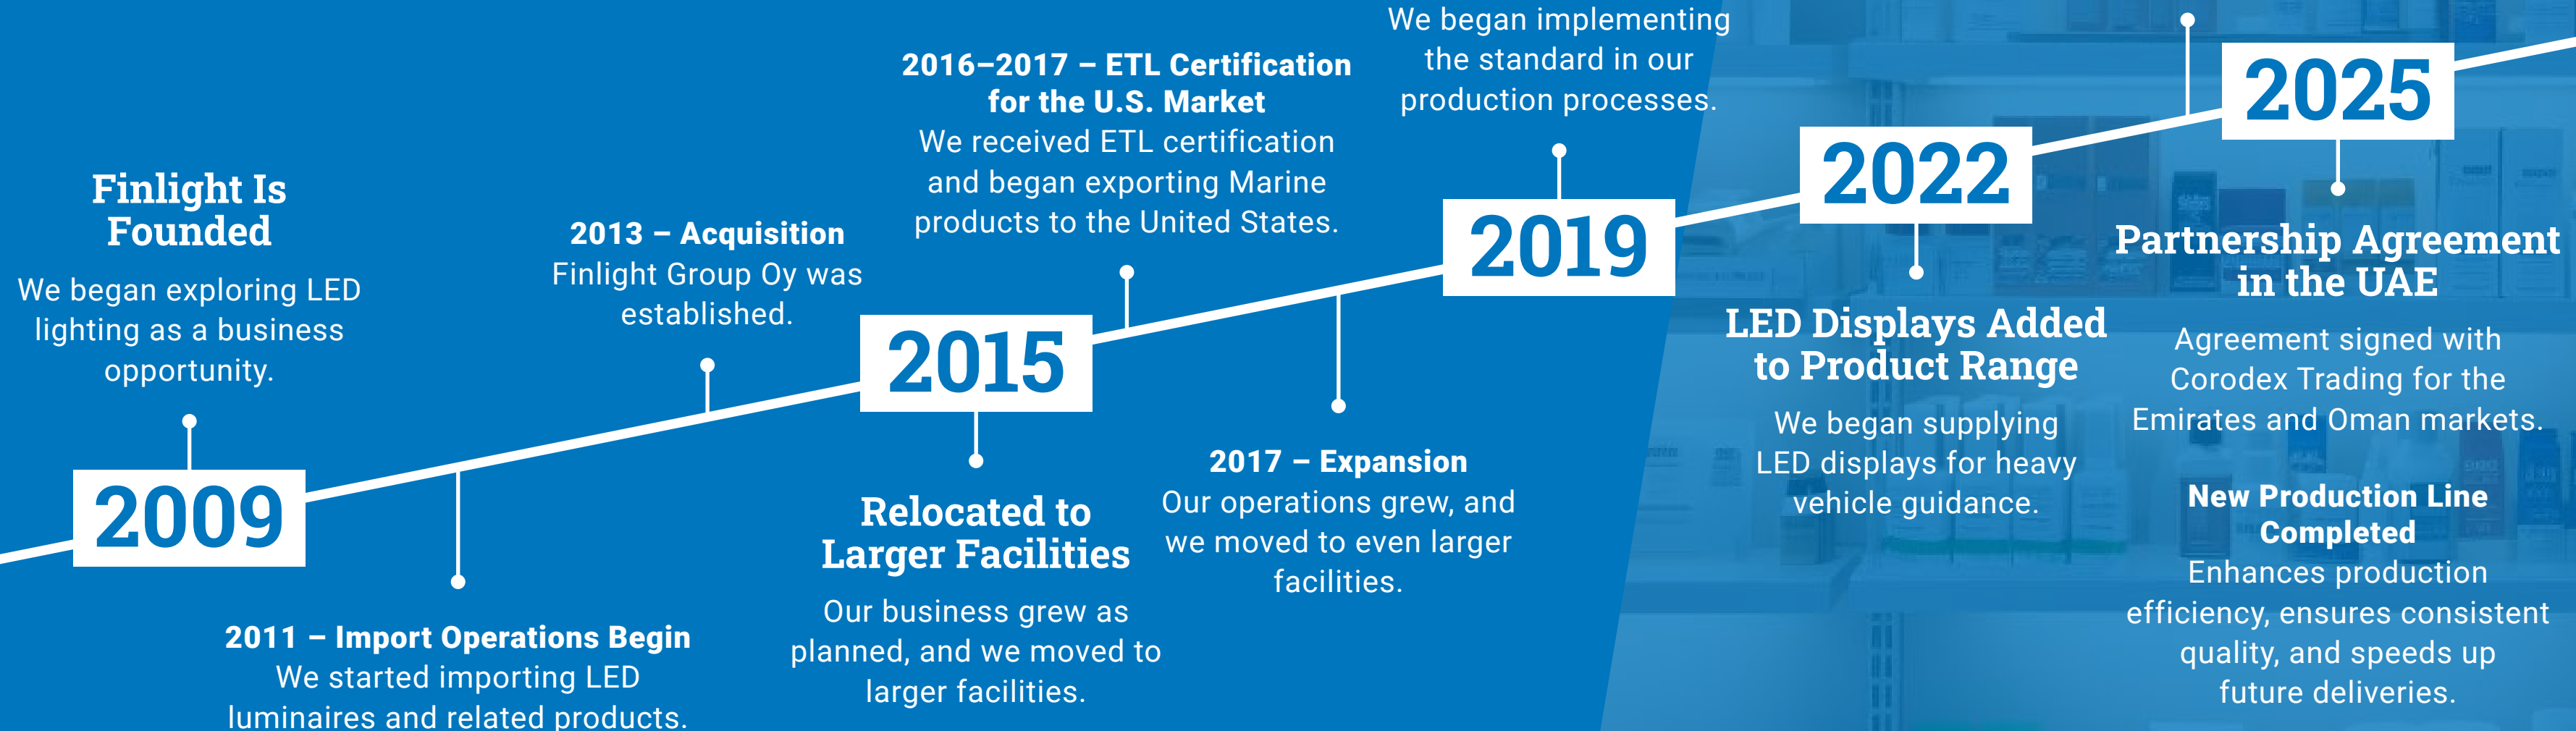

We back our products with some of the longest warranties on the market. If any problems come up, we're always here to help.

RESPONSIBILITY

We supply responsibly designed and manufactured, long-lasting and energy-efficient products that perform reliably in any condition.

Over 15 Years of Lighting Solutions – The Journey

Goals That Drive Our Growth – Where We Are Headed

Technology Leadership

We invest in continuous development to offer high-value lighting technology for our customers' operations.

International Growth

We are expanding into global markets in industry, logistics, and port lighting – responsibly and with a long-term view.

Strengthening the Partner Network

We are building a trusted partner network of subcontractors, designers, technology providers, and sales and project partners. As an official **Casambi Sales Partner**, we offer scalable, high-quality solutions.

Expert Lighting Partner

We provide expert-level support and customized lighting solutions tailored to each application and environment.

Sustainable Innovation

We develop energy-efficient, long-lasting, and repairable lighting solutions whose modular design reduces environmental impact by facilitating repairs.

Finlight™ is a member of the **Port Equipment Manufacturers Association (PEMA)**, a global network that brings together the leading players in port infrastructure and technology.

LED Lighting for Industry and Outdoors

Product Portfolio

High-quality luminaires designed for professional use in industrial and specialized environments.

Industrial Luminaires

- Production, industrial, and warehouse

Outdoor Luminaires

- Yards and walkways
- Mast and area lighting
- Facades and exterior building walls

- Lighting solutions integrated into interiors or technical structures

Expert-level Services for Lighting Projects – Service Portfolio

*Our services cover comprehensive solutions tailored to individual needs –
from lighting calculations and control systems to Finnish contract manufacturing.*

Lighting Calculation & Consulting Customization Services

- We design and deliver custom luminaires and lighting solutions tailored to the customer's needs.
- We modernize existing luminaire housings by upgrading them with LED technology (Retro-Fit).

Lighting Control Systems

- DALI control solutions
- We operate as a Casambi Sales Partner

Contract Manufacturing

- We manufacture luminaires and lighting components designed according to the customer's specifications, which can be integrated into the customer's own machines, equipment, or products.

Finnish Lighting Expertise – Contract Manufacturing by Finlight™

We offer specialized Finnish lighting expertise in product design, manufacturing, and assembly at our facility in Akaa. When product size or specific requirements call for it, we leverage our extensive subcontractor network both in Finland and internationally.

Top-Quality Materials

We use only high-quality, responsibly sourced materials.

CSA and ETL Expertise

In-depth understanding of North American compliance (USA & Canada).

ETL-Audited Facility

Quality assurance conducted four times a year according to international standards.

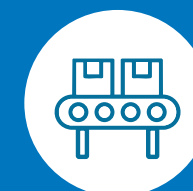

Material Expertise for Demanding Environments

Specialized knowledge in component and material selection for challenging conditions.

Quality Control and Traceability

Strict processes and transparent tracking for every production batch.

New Production Facility in Akaa 2025

Our new Akaa facility will speed up lead times and increase production capacity.

Distinctive Expertise and Service – Why Choose Finlight™

- 1. Deep Technical Expertise and Professional Skill**
We have a thorough understanding of lighting technology and design solutions that perform safely and efficiently, even in demanding conditions.
- 2. Customization and Design Capabilities**
We create bespoke luminaires and lighting solutions tailored precisely to the needs of each site.
- 3. Customer-Oriented Service and Ongoing Support**
We are easy to reach and provide support throughout every stage of the project, even when challenges arise.
- 4. Lighting Control Expertise**
We deliver smart lighting solutions using Casambi and other control systems to enhance efficiency and flexibility.
- 5. Long and Reliable Warranty Periods**
Our products come with some of the longest warranties on the market, based on proven durability and high quality.
